

## Message of Al Falah University President

Our challenge is to advance and enhance the level of academic teaching and learning at Al Falah University to satisfy the requirements and aspirations of our community, our nation and of neighboring countries.

As a recently established university, AFU is concerned with all the components of the educational process and consistently seeks to employ faculty members from prestigious universities worldwide.

AFU persistently strives towards excellence and progress in the areas of multidisciplinary learning, scientific research and community engagement.

Al Falah University prepares students by conducting activities that promote and develop critical and analytical thinking skills and providing innovative solutions in order to ethically and professionally contributing to the wellbeing of the local, regional and international communities.
